WASHINGTON.

ATTY.-GEN. DEVENS IN CHARGE OF THE WAR DEPARTMENT.

APPOINTMENT OF A NEW COMMISSIONER OF PALENTS PROBABLE-THE CONFLICTING REPORTS REGARDING THE INDIAN WAR-A TALK WITH SECRETARY SHERMAN ON

FINANCIAL MATTERS. Washington, July 14 .- During the absence of Secretary Thompson the navy department is under the care of Atty.-Gen. Devens. The latter stays at the navy department from two to four o'clock each afternoon. This idea is entirely original and and the explanation for it is the fact that there is considerable jealousy-a sort of a family fight-among the officials in the department. The matter is the more marked because congress recently passed a law devolving the duties upon the chief clerk of the assistant secretary, and in case the chief clerk is absent the duties were to fall upon Commodore Howell, chief of one of the

INDIAN MATTERS. The Indian bureau is more emphatic than ever in the statement that Howard's Indian war, as telegraphed throughout the country, was exaggerated in the greatest degree. The bureau officials maintain that comparatively a few Indians left the reservation, were fired upon by the settlers, then began marauding, and that Howard, coming upon not more than two hundred, had a skirmish which he painted in glowing colors to the war department, but without giving any definite information as to the number engaged and killed. They say that a few more dispatches will be received and then the war will be over. It is charged that the Indian excitement was gotten up by those interested in transportation and furnishing the sinews of war. A telegram was received to-day from the agent of the Warm Spring Indians in Southern Oregon, stating that they were quiet and obedient, and that

PROSPECTIVE CHANGES. It is now pretty well understood that the secretary of the interior contemplates a change in the commissioner of patents. Ellis Spear, the present incumbent, has been the object of violent attacks ever since he first entered the office. It seems that the trouble is that too many persons were placed on the pay-roll; that Spear yielded too rapidly to the demands of politicians. The appointment clerk of the bureau, Robson, is also the subject of displeasure on the same score, and it is expected that he will resign at the same time that Spear sends in his resignation. It is rumored that Congressman Hendee of Vermont will be tendered

the position of commissioner. SHERMAN ON RESUMPTION.

general topics this evening. He says that everything he did while at New York last week and a great many things that were not done were published in the newspapers. Your correspondent is warranted in giving the following outline of some of the interesting facts in relation to resumption mentioned by Mr. Sherman: "We could resume to-day, but it would not be proper to do so. The law fixes the date when we shall pay coin for paper dollars. It means payment then and not before then. It will be better to go along for six months and let the people understand that this condition of things is real. Then the good effect will be felt. Confidence will be restored, capitalists will come forward and invest their means and manufacturing will revive. The premium on gold is merely nominal now at one-half per cent. The sale of a half million of gold would break the market. A prominent broker in New York told me hours, The public are invited to give him that \$1,000,000 would knock down this pre- a call.

mium. I believe gold will go down to three-eighths shortly and soon thereafter to one-quarter, which is nothing more than a broker's premium. The balance of trade is greatly in our favor, having reached \$250,000,000 last year. Our bonds have ceased to return from Europe. They had been returning since the panic of 1873. At that time about a thousand million of our bonds were held abroad. Now not more than about two hundred millions are held there and seventy-five millions returned in two months during the silver agitation. All the bonds that have returned have been absorbed in this country. None went back to Europe. No more bonds will be sold. There is one hundred and ninety million, all told; or rather, we have in round figures, one hundred and twentythree millions gold and silver dollars in the treasury for resumption purposes, that is exclusive of all coin obligations, consisting of coin certificates, bonds due and interest on bonds, and is also exclusive of the subsidiary silver on hand."

BERLIN, July 14,-Prince Bismarck in his speech closing the congress Saturday declared he did not hesitate to affirm that this congress deserved well of Europe. The plenipotentiaries would have the consciousness of having, as far as possible, restored and assured peace. He entertained a firm hope that the European understanding would remain durable and that the cordial relations established among the plenipotentiaries would consolidate good relations between their governments. AT MONTREAL-INCIPIENT RIOT. During the time the Grand Trunk train with the Shelbrooke and Richmond militia, who had been at Montreal on the 12th, was delayed Saturday evening at Tanner's junction to allow a vessel to pass through the canal bridge, an affray occurred between the military and some 200 French Canadians and Irish. The account given by persons on the spot is that the soldiers used some expressions about the green distasteful to the crowd, and the latter stoued the train. The soldiers admonished the crowd to stop or they would fire. The attack be-Secretary Sherman conversed freely upon ing continued the military fired some 50 or shots from rifles and revolvers, wounding two youths, Germaine Rowland and Michael Payette. The train was hurried off or more serious consequences would have ensued. The troops are said to be members of the Orange order. Gen. Smythe telegraphed to have the men arrested at

SETTLERS IN DISTRESS-ANOTHER FIGHT IN PROGRESS.

SAN FRANCISCO, July 14 .- A Portland (Oregon) dispatch says: Gen. Sprague, superintendent of the O. & N. company has received the following dispatch from Gov. Chadwick, under date of Umarilla, July 13: "Could Portland do anything to relieve the distress of Pendleton! The actual necessaries of life are needed there by families. Some emigrants are there. I have request-

ed officials to prevent suffering."

The following dispatch was received from Walla Walla, July 13th, 8 p. m.: "A man who left Weston to-day says troops are fighting between the mouth of Lodi and Willow Cayuse station, twelve miles from Weston, on the Meachman road. They commenced firing between 8 and 9 o'clock this morning. They were still fighting when he left. There were about 350 soldiers under arms. They expect Mayor Sanford at Cayuse station to-night. Fix companies that left Walla-Walla for Lewiston have been turned back and are now en

route for Walla-Walla. Many wagons have arrived in the city, containing families coming in for safety. They are still arriving from various directions. The following dispatch was received from Walla-Walla July 13, at 10 p. m.:

"This place was thrown into excitement this p. m. upon receipt of a report that the hostiles were on Wild Horse creek and that the fighting was going on there, be-tween the artillery and Indians, and that in all probability the reds would come down Vans Yickle canyon and make for the mouth of Snake river, passing within two or three miles of this place and likely calling upon us. Upon learning of the fighting upon Wild-Horse Gen. Wheaton stopped seven companies of cavalry under Gen. Forsyth, who were just leaving for Louiston, and ordered them immediately to Walla Walla, to aid Miles, who it was supposed was engaged. A message was just received confirming this supposition, and a courier, sent from here to Gen. Forsyth, instructing him to make all possible speed and by the shortest roads to Miles who has, doubtless, had a hard fight to-day, as five hundred Iudians are reported to have been in the band that burned Cayuse station. It is undoubtedly this same band that Miles, and perhaps Throckmorton, are fighting to-day. We have all the women and children aboard the wharf-boat. Wilbanks carried 11 out of the 15 townships, and the delegation to the Carmi convention were unanimously instructed to cast the vote of this county for him. This secures Mr. Wilbanks' nomination, as Hamilton county has already instructed her delegates to vote for the choice of this county. Hon. R. W. Townshend was instructed for congress, Geo. W. SUNSTROKE AND COMA.

THE CONDITION OF THE SYSTEM EVERYTHING. One of our best known and oldest physi-

cians, speaking through the columns of the Globe yesterday, said: "So convinced am I, after thirty summers that I have treated the disease in this city, of the injurious effects of alcoholic stimul-Constantinople, July 14.—Osman Pasha ants, that I can not recall one case of sunstroke, where it was possible to get the correct history, in which one of two conditions had not existed: The patients had been indulging freely in liquor, or had been suffer ing under some diseased condition of the system—most frequently malarial poison."

Then, according to this experience of

thirty years, if we can provide a preventive

from malarial poison, we will have about

solved the sunstroke affliction, now so

prevalent. At this season of the year there is a large amount of malarial poison in the atmosphere and the system is constantly absorbing it. Now that poison must be removed or the patient is not only liable to sunstroke, but also liable to malarial fever and all its complications. The Holman Pal worn as a preventive absorbs the poison from the system as fast as the patient absorbs the poison from the atmosphere, it therefore becomes us to say there are two sure and reliable preventives for sunstroke. The first, don't indulge in strong drink; the other, don't fail to get a Holman Pad and wear it continually during this excessively

TORTURE.—Await the rheumatic sufferer who resorts to Hostetter's Stomach Bitters. That this benignant cordial and depurent is a far more reliable remedy than any colchicum and other poisons used to expel the rheumatic virus from the blood, is a fact that experience has satisfactorily demonstrated. It also enjoys the advantage of being-unlike them-perfectly safe With many persons a certain predisposi tion to rheumatism exists, which ren ders them liable to its at tacks after exposure in weather, to currents of air, changes of temperature, or to cold when the body is hot. Such persons should take a wine glass or two of the Bitters as soon as possible after incurring risk from the above causes, as this superb protective effectually nullifies the hurtful influence. For the functional derangements which accompany rheumatism, such as colic, spasms in the stomach, palpitation of the heart, imperfect digestion, &c., the Bitters is also a most useful remedy. It is only necessary in obstinate cases to use it with persistency.
